HERE'S HOW I WORK BEST

Async-forward

Clear feedback

A bit of structure

Thoughtful design

I prefer async communication, clear direction and organized feedback. If a message will do, we can skip the meeting.

I like having a system, knowing what's next and keeping things moving without unnecessary steps.

With design, I care about the details — how it looks, how it functions and how everything works together.

01 / MENTAVI HEALTH

A connected brand experience.

Bringing a mental healthcare brand to life across its visual identity and digital communications.

BRAND IDENTITY | UI/UX | DIGITAL | PRINT

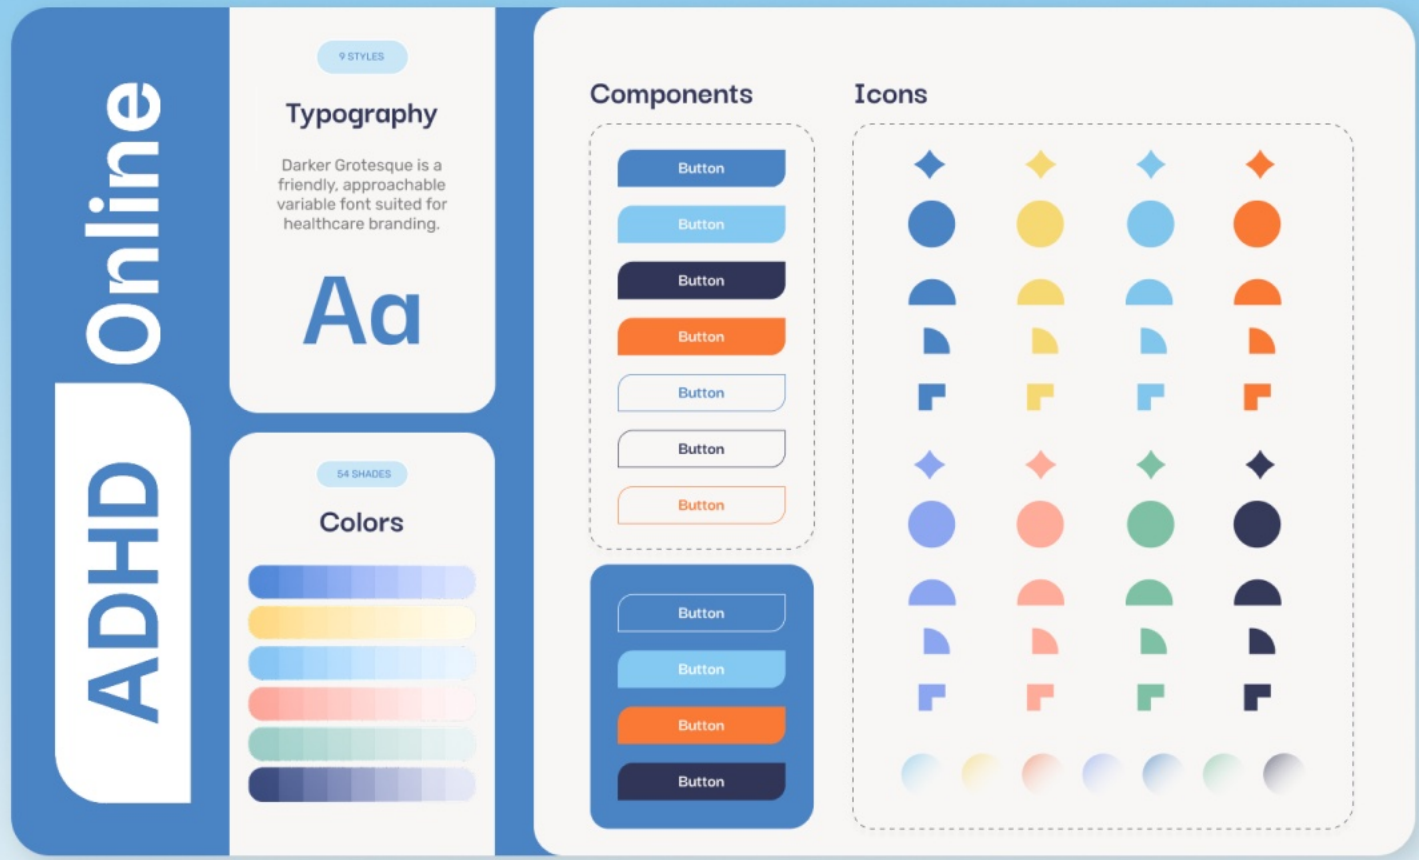

02 / ADHD ONLINE

A connected brand experience.

Bringing a mental healthcare brand to life across its visual identity and digital communications.
